he did not intend to have anything more to do with politics came in response to a question put to him by a newspaper man.

"No, I don't expect to go back into politics," he told his questioner. "But I do not want to talk about political questions." he added.

The ex-President displayed some of his dry New England wit when he was asked whether he had made any special study of life insurance that had fitted him to fulfill his dutier as a director of the company.

"Only such study as any one makes who has been talked to by an enterprising life-insurance agent," he repiled.

GOEBEL SMASHES WING AS HE LANDS PLANE

**BRAIN TELLS** 

(P)-Art Goebel, transoceanic flyer smashed the running gear and a wing of his plane when landing here today at the local airport. The machine turned up on its nose but Goebel was not hurt. He had arrived here from Kansas City in six hours and five minutes and was on his way to Los Angeles. He will remain here to repair the plane.

PALO ALTO, May 8. (Exclusive)—What that modern institution PALO ALTO, May 8. (Exclusive)—What that modern institution of entertainment, the photoplay, owes to the avocational interest of a famous early Californian and fosterer of education in fine blooded horses today was strikingly told at the fiftieth anniversary celebration of the birth of photography in motion. With the faculty of a distinguished seat of learning and with representatives of a prominent motion-picture organization joining hands in the ceremonies the event assumed unique significance.

— unveiled in memory of the achieve—The consideration of the services of

motion-picture organization joining assumed unique significance.

The occasion was the semicontennial celebration in commemoration of the motion-picture research conducted by Leland Stanford in 1878-79, with the assistance of Edward J. Muybridge, John D. Isaacs and J. D. B. Stillman. It was held under the auspices of the board of trustees of Stanford University and was participated in by official delegates from the Academy of Motion Picture Arts and Sciences. The setting was the university campus and, notable for the chief event, the old Stanford stock farm, where the first action photographs were taken.

> Will Rogers Remarks: PHILADELPHIA, May 8.

[To the Editor of The Times:] The disarmament Times:] The disarmament conference in Geneva adjourned just at the only time when it was about to agree; now they will go home and study on it and return with their usual propositions; France will want England to sink their navy, England will agree to France sinking their army, both will want Germany to sink her rememmany to sink her remem-brances and all three agree on Italy sinking Mussolini. Asking Europe to disarm is like asking a man in Chicage to give up his life in-"good will," but if we delved in Europe among those hyenas we would be in war before we got our grip unpacked. While we are having Washington days and Lincoln days, let's have a "thank the Atlantic Ocean day."

WILL ROGERS.

EX-CONVICT TO RULE GARY

Indiana Steel Town Renominates Former Mayor Who Served Term at Atlanta on Liquor Charge

GARY (Ind.) May 8. (P)—Undaunted by a term in Federal pris-aspirator against the National Prohibition Act, former Mayor R Johnson scored an encore on Gary's political stage today. Oppositions of the Perublem was really appropriate. Co. Johnson scored an encore on Gary's political stage today. Opposing Mayor Floyd E. Williams for the Republican mayoralty nomination in Tuesday's primary, he won the indorsement of his party and the equivalent of election to his former executive office.

Virtually complete returns showed others down the gamut to petty Johnson the winner by 13,303 votes to Williams's 9766.

The comeback of another convicted conspirator was checked. William Dunn, seeking the Republican candidacy for his old post as Municipal judge, was defeated by Herman Key, 4294 votes to 4053 on the basis of the count in fifty-four of fifty-seven precincts. The incumbent judge, C. M. Greenlee, ran third.

Johnson's new entry into civic affairs despite his penitentiary service at Atlanta was possible by virtue of a Presidential pardon. Mayor Johnson, Judge Dunn and fifty-tirred others—polica, city officials and dential pardon.

convention when Beaton said in his address:

"Will Hays has as much regard for public welfare and morals as he has for the welfare and the morals of the Republican party. He accepted for it money that was so unclean that he was afraid to tell all the truth about it even when under oath. He was given a position to add to pictures a respectability he himself does not possess.

"He is trying to put a ring through the nose of the Pederation of Women's Clubs in order that he can lead them shere he desires."

or at least to restrict sharply their incumbent. Incumbent. E. Snapper Ingram, the incumbent, the Benate and, if approved in the upper house, it will be sent to Con-reward for his satisfactory work.

reward for his satisfactory work.

RICE-WRAY AHEAD

In the Eleventh District the votes were scattered among five top men, with Lester Rice-Wray leading the held with 3045 votes. J. C. Barthel will be on the June ballot with him. He got 1757 votes. Edward A. Gersty, Sr., came right behind Barthel with 1748. Fred A. Newton received 1482, and John T. Connelly 1386.

Councilman Poster, the incumbent in the Twelfth District, led the field in that race but will have to run it off in the finals with Thomas W. Williams.

W. Williams.

The race in the Thirteenth District proved to be a Walk-away for the incumbent, Carl I. Jacobson. He was re-elected by a more than 3-to-1 vote over his nearest competitor, Leslie S. Saunders.

In the Fourteenth District Charles A. Holland led a large field of candidates with 582 votes. He will fight it out with Sherrill B. Osborne, who received 2837 votes.

James H. Dodson, Jr., was the top man in the race in the Fifteenth District and will be opposed

top man in the race in the Filteenth District and will be opposed on the June ballot by A. E. Henning. The latter was hard pushed by Frank McGinley for second place, only a handful of votes separating the pair.

As the final tally was completed and the results were established the candidates, winners and loseris alike, issued and exchanged statements, congratulatory messages, expressions of appreciation, and, in the case of the successful nomine, announced plans for heavy campaigning for the final voting.

In expressing his gratification over the result, Forter said that his nomination indicates to him the desire of the people for a "cleaner community." Bonelli's statement of appreciation carried thanks to the more than 40,000 voters who made it possible "for me to deserve their further consideration for the office of Mayor."

Quinn's statement was a congratulatory one to the successful candidates, pledging his support to the one who finally is selected as Mayor, and thanking those who supported him.

TOWNER HAS LONG.

TOWNER HAS LONG

TALK WITH HOOVER WASHINGTON, May 8. (P)-Horace A. Towner of Iowa, whose resignation as Governor of Porto Rico is in the hands of President Hoover, had a long conference with the Chief Executive today at the White House. Gov., Towner said he has laid before Mr. Hoover a full picture of conditions in the island. The President has not selected Towner's successor. Candidates mentioned include Theodore Roosevelt, Jr., and C. Bascom Siemp, Republican National Committeeman for Virginia.

#### TRIBUTE GIVEN FILM FOUNDER

Stanford's Part in Industry Told at University

Tablets Mark Site of First Motion Photography

Semicentennial Celebrated by Screen Notables

(Continued from First Page)

give the true appearance of motion. Isaacs, it is stated, advanced the research by devising electrical equipment, and Stillman; a doctor, analyzed the photographs in respect to the locomotion of horses, dealing with the physical and anatomical aspects of this locomotion.

STILL INTERESTED The Stanford experiments have long been a component part of the history of motion pictures but it is a question whether their importance has ever been recognized so fully as in connection with this unusual celebration. The academy sent a special delegation to the affair, prominent among whom were William C. De Mille, academy vice-president; Louis B. Mayer, president of Metro-Goldwyn-Mayer; Clara Beranger, scenarist; Alec B. Francis, Louis H. Tolhurst, who all took part in the ceremonies; Lester The Stanford experiments have cook part in the ceremonies; Lester Cowan, secretary of college affairs

Cowan, secretary of college affairs, and others.

Members of the university faculty who spoke included Robert E. Swain, acting president; William M. Newhall, chairman of the board of trustees; Walter R. Miles, professor of experimental psychology; Almon E. Roth, comptroller; Joseph D. Grant of the board of trustees and Alonso E. Taylor, director of food research.

The program began Thesday evening with a lecture on "The Evolution of the Motion Picture," given by Mr. Tolhurst and including illustrations in the form of reels of film from the early days.

CO-OPERATIVE INDUSTRY

CO-OPERATIVE INDUSTRY CO-OPERATIVE INDUSTRY

Mr. Mayer, in his address, said
that co-operation was evident in the
very beginning of motion-picture
photography, as was evident from
the fact tha: the credit was not
given to one man alone but to a
group. He declared that motion
pictures of today are made in a
similar co-operative manner. The
difference between work done today
and that accomplished by Stanford is largely a difference in magnitude. In this connection Mr.
Mayer cited figures indicative of
the present pre-eminence of the hitude. In this connection Mr.
Mayer cited figures indicative of
the present pre-eminence of the
films. He also paid a high tribute
to President Hoover for the stiention and interest that he gave to
pictures. "President Hoover realises as few men do the importance
of films in connection with foreign
commerce, public responsiveness and
in other ways," Mayer said, taking
recognition, incidentally, of Hoover's
home being in Palo Alto.

Mr. De Mille in his talk, declared
that since the advent of the talking picture the motion-picture industry will have greater need for
the assistance of the university than
ever before.

IN LITERATURE NOW

IN LITERATURE NOW

"The motion picture has now entered into literature and we have come to you fon help, consolation and guidance," he said, at the unveiling of a tablet on the old Stanford stock farm.

At the dinner in the evening De Mille spoke at considerable length about the purposes and accomplishments of the academy. He said that the desire of the organization in connection with education was to afford universities and colleges proper contact with motion pictures. "We are interested in the sociological aspects of this development," he said.

"What is more, the talking picture is going to be a force in the education of the public language, and we need the co-operation of the university in carrying out this education, and also in the furthering of the motion picture great functions of improving taste and combating ignorance."

INVITATION TO DE, SWAIN

LONDON, May 8. (P)—Charles
Evans Hughes, en route to assume
his new duties on the bench of the
World Court for International Justice at the Hague, was given a great
ovation at a dinner in his honor
tonight by the British pilgrims. The
applause came especially when he
referred in his address to AngloAmerican friendship and said:

"It is no disparagement of any
institution or of other international
relations to say that Anglo-American amity is the corner-stone of international peace and the essential
assumption of any world peace program."

Mr. Hughes spoke in response to
the toast to his health which was
proposed by Lord Hewart, Chief
Justice of Engiand, and in which
reference was made in warm terms
to the "great and wonderful works"
of the distinguished American.

### Richard Wagner's George Steck Piano

Now on Exhibition

#### BIRKEL MUSIC COMPANY

THE George Steck Piano chosen by the members of the Grand Nibelungen Orchestra in 1876 to express their high esteem of Richard Wagner, will be on display all during this week.

One of the most significant episodes in the illustrious history of the George Steck, is the fact that Wagner turned to this instrument when creating "Parsifal," his greatest masterpiece. His daughter, Madame Thode, tells that the piano became known in the Wagner family as the "Parsifal" Grand.

Hear-

The Instrument that met the demands of Wagner's Genius

... and also the modern George Steck piano which is heir to this rich heritage and all the refinements of passing years.

# ON FARM PLAN

Only Two Democrats Quit Party Lines

Elimination in Conference Expected

Bill May be Sent Back Revenue Basis

vote upon."

The administration forces were doomed to be defeated by one vote even if Senators Walsh and King had declined to pair with the two absent members. Senator Walsh had a clerk read a letter from Senator Shipstead in which the Minnesota member said he was never so desirous of voting on a proposal and urged Walsh to pair so he would not be "required to further impair my health by being present."

hack to the Senate without action by the House.

The second method would be to meet the question on a direct vote in the House. Leaders feel that they have a broad majority against the proposal and expressed willingness that the matter be handled by a direct House vote.

The debenture plan aims to increase the price of farm crops by giving a surplus exporter a debenture certificate, the value of which would be equal to one-half the tariff on imports of those commodities. In the case of cotton, upon which no tariff duty is levied, the debenture rate would be 2 cents

COTTON INCLUDED

Republican leaders have asserted that the conference will eliminate the disputed section, but both Senate and House must approve the conference report before the farm bill can be sent to the White House. Senate advocates of the debentures assert they have the votes to defeat the acceptance of any conference report which recommends the elimination of the debenture section. Although all House Democrats might vote in favor of the debentures in considering the comhave so far failed to favor the plan, and without some such support a debenture movement in that branch of Congress would fall in view of the strong administration majority. Little further difficulty is expected in the Senate to interfere with final passage of the farm bill there. A minor controversy has developed over the amendment of Senator Copeland, Democrat, New York, to eliminate fruits and vegetables from the operations of the bill. Senator McNary, who has charge of the farm measure, declared that after this amendment is disposed of a final vote will follow quickly.

#### Fears Felt for Danish Vessel

SAN FRANCISCO, May 8. (Exch sive)-Local officials of the East Asiatic Company today admitted fears that the Danish training ship Kobenhavn may have foundered and gone down with all hands. The ship left Buenos Aires for Melbourne December 14, 1928, and no word has been heard from her since, alhas been heard from her since, al-though she carried wireless. Aboard were fifty officers and men of the crew and fifty cadets in training. The fact that the ship was in ballast adds to the anxiety. Ships of every nationality have been asked to watch for the vessel if traveling on or near the Kobenhavn's known course.

#### Hoover to Talk Over Air Plans

AKRON (O.) May 8. (P)-Pro dent Hoover and Paul W. Litchfield, president of the Goodyear-Zeppelin Corporation, will discuss

Zeppelin Corporation, will discuss plans for transoceanic dirigible airmail lines to Hawaii and London, it was said here today.

The possibility of such lines was gone over by postal authorities and officials of the airship company in Washington last week. Original proposals for a dirigible line from Los Angeles to Honolulu have been expanded to include similar service between New York and London.

#### HOOVER DEFIED JOHNSON BACKS DEBENTURE WATER ACREAGE

Senator Bitterly Assails Opposition and Votes With Insurgents in Defiance of Hoover

BY ROBERT B. ARMSTRONG

"Times" Staff Correspondent
WASHINGTON, May 8. (Exclusive)—Senator Joh a bitter speech and by his vote opposed President Hoover and aided twelve other insurgent members of the Republican party to retain in the Senate farm-relief bill the provision for export debentures denounced in detail as unsound by President Hoover and three of his ablest Cabinet

in detail as unsound by President Hoover and three of his ablest Cabinet aides.

The effort of Senator Watson, Republican leader, to eliminate the debenture plan lost by a vote of 47 to 44. A change of two votes would have eliminated this feature so assalled by President Hoover. Voting with Senator Johnson against the wishes of President Hoover were Senators listed as Republicans but generally rebellious toward the White House.

SPEARS FOR HOUR

rebellious toward the White House.

Choose a tire that masters all roads because it's

built on the road as well as in the laboratory.

NEW driving and road conditions are constantly adding to the demands on tire service-higher speeds, four-wheel brakes, small wheels, overloading, under-inflation, misalignment of wheels, more frequent starting and stopping.

C The tire requirements necessary to meet these conditions are never found in the laboratory. Q So Samson engineers have for years spent much of their time on the road. Samson test cars and test trucks are running day and night - under all conceivable driving con-

ditions - to test Samson tires in every form of service. CI That's why Samson has built

up a reputation as America's highest quality

tire, and that's why increasing thousands of

motorists have come to be staunch and per-

manent buyers of Samson tires. C Think of

this the next time you need tires—then try

'Revenge" for May-Day Riot Asked by Ribbons

Only Three Bodies Releas by Berlin Police

"Revenge for the heroes of the bloody May Day of 1929."
Only the bodies of three of the dead had been released by the police for burial, but the same demonstration was given as had been planned for burial of a score or more of the victims in Friedrichs-felde Cemetery, just outside of Berlin. There were thousands in the procession which wound its slow way to the burial plat.

The police, against whom the dead had fought, were not in evidence. The demonstration was given free rein by the government, which

LEADER SIDETRACKED

vasion of Switzerland by the central powers."

At the third conference held at Chantilly in December, 1916, it was decided to order a general offensive early in 1917 on every front. But when this was about to commence. realizing the impossibility of its succeeding, a fourth conference, held as Calais on February 28-27, 1917, decided that Cen. Nivelle should take charge.

"The materials were there and it was felt that something could be done. Only they should not have changed horses. Papa Joffre should have been allowed to make use of the resources which he had accumulated."

Mulated."

After Caporetto, while Gen. Foch was hastening to the rescue of the Italians with a Franco-British force, the prime ministers of the various governments agreed on the establishment of a supreme war council. This complicated stucture was not destined to stand for long. Public opinion, alarmed by the imminence of danger, sought a new leader.

Americans, they recognized a kindred spirit. The name of Foch was on every lip.

"It is Lloyd George," commented Foch, "who contributed the most toward the attainment of the unified command."

toward the attainment of the unified command."

On March 14 and 15 the Versailles committee met in London.

"I was present with Clemenceau and Stephen Pichon," said the marshal of this. "I had just been given command of a striking force which did not exist. I asked the English to share in the formation of this force by providing troops. Haig declared this impossible. Lloyd George supported him. Clemenceau accepted everything.

"A new offensive was due, nopreparations had been made and nothing was done. I was not allowed to speak. The next day I had my chance and I told them what I thought. Lloyd George was staggered. But we broke up without any decision. A few days later the drama took place! The British had given way before the German attack."

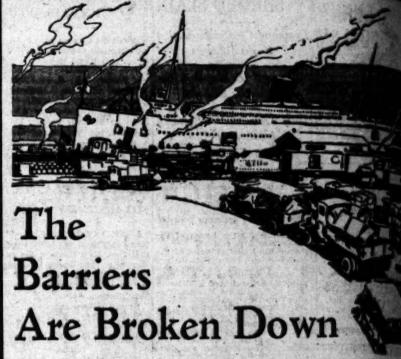

(In his next article Commandant Burnet continues Marshal Foch's story of his elevation to the supreme command of the Allied armies in the crisis of the World War.)

Bay District

Change of Gas Offers Saving

SAN FRANCISCO, May 2. (P)—Gas consumers in San Francisco and the vicinity will be saved approximately \$1,900,000 annually if the State Raiiroad Commission approves an application filed today by the Pacific Cas and Electric Company to substitute a mixed gas for the manufactured gas now being used in the territory.

The new gas will have a British thermal unit capacity of 700, instead of the \$50 contained in the present manufactured gas, the application states. The higher percentage, commission engineers said, will result in a saving of approximately 21 per cent in the amount of gas used and a yearly financial saving to the consumers of nearly \$3,000,000.

FIGHT REVEALED

Hunt Tells of Exciting Adventure

Commander's Firmness Wins

faced Gen. Pershing in France and demanded:

"Do you wish to go into battle?"

"Most assuredly," the American commander replitd ealmly, "but as an American ar ."

Foch objected that it would take a month to complete such an army. "Give me a sector anywhere you decide," declared Pershing, "and I will take it over at once."

This historic scene is pictured vividly in a narrative off the government presses today, which for the first time gives an official account of how it was decided that a million Americans would enter the Argonne as an American army, not as French reinforcements.

War College Narrative Gives Story of Great Crisis

Demand to Keep American

Forces Intact Told

Over Many Obstacles

PERSHING'S FIGHT

at First Army headquarters in Ligny-en-Barrios, the Barrative published today says:

"It was a moment of high tension. The two commanders faced each other, both with decided convictions. The decision affected more than 1,000,000 Americans."

Eleven days later, September 10, 1918, while Pershing's first army crouched for its spring at St. Mihiel the agreement was ratified that gave him a nimety-mile front. Within two weeks all his forces were driving through the Argonne toward Sedan and the armistice.

The monograph is a chapter of the official narrative history of American military participation in the World War, which the War College specialists are preparing with access to Allied and German records as well as American. It is devoted exclusively to the account of Pershing's difficulties in carrying out President Wilson's instructions, given him before he salled, to cooperate with Allied armies as his judgment dictated but to keep always in mind "the underlying idea" that his forces in France "are a separate and distinct component of the combined forces, the identity of which must be preserved."

It is disclosed that Allied diplomatic pressure was repeatedly exerted directly on President Wilson extended.

WITH BRITISH UNITS

Just how much of a necessity Allied statesmen as well as soldiers
regarded the use of American troops
as replacements in their armies is
revealed in connection with the
"London agreement" of April 24, in
which Pershing assented to give priority during May troop shipments
to infantry and machine-gun units
of six divisions to be trained and
used temporarily with British forces.
This grew out of the placing of additional British troop carrying tonness at his diversal for the nur-

War Council met at Abbeville, France with Premier Clemenceau presiding and Premiers Lloyd George and Orlando also present as well as Poch, Petain, Haig, Pershing and Bliss and others.

Clemenceau disapproved the London agreement for American infantry and machine-gun ahipments in May for the British army unless similar shipments for the French army, followed in June. Pershing propptly told the council that the Allies could not decide what the United States would do with its forces.

United States would do with its forces.
"I do not understand that the American army is available for allocation as recruits to either Great Britain or France," Pershing answered, "nor for any indefinite period. We must have an American army. I shall insist on this principle, that no parceling out of the American army shall prevail. I want this principle taken up and agreed to now by this council."

Sonora Bids for Foreign Capital

NOGALES (Son., Mex.) May S. (P)—Every assistance and protection to foreign investors in Sonora will be given by Francisco S. Elfas Governor of that State, who publicly declared today that Sonora welcomes foreign capital to develop the natural resources.

As a result of the open invitation many mining companies that had suspended operations due to the rebellion have announced their intention of resuming activity.

JERUSALEM SHRINE HONORS ANGELENO

KANSAS CITY. May 8. (P)—Mrs. Mary E. Bartlett, Nelsonville.

Victoria Crouse of Hollywood, Cal., was elected Supreme Worthy Shepherdess. More then 1000 voting delegates from all parts of the country are attending the convention.

#### PERSHING'S LONG MRS. STRAUS ESCAPES LION

Widow of Former Ambassador Back From African

NEW YORK May 8. (A)—After a series of exciting experiences in Afriba during which she narrowly escaped from a herd of elephants, a lion and a rhinoceros, Mrs. Oscar S. Straus, & years of age, was home today apparently none the worse for her adventure.

Mrs. Straus, widow of the former casion she was in the direct path United States Ambassador to Turkey, headed an expedition to collect bird specimens for the American Museum of Natural History, She was accompanied by her grandson, Edward Schafer, Jr., ornithologist of the Carnegle Institute of Pittsburgh, and Mr. and Mrs. Rudyerd Boulton. Specimens of 200 birds were obtained and more than 5000 feet of motion-picture film.

After traveling days from Khartoum down the White Nile, the party drove to Uganda in automobiles, making their own roads through the jungle and building bridges for 1000 miles.

Mrs. Straus said that on one oc-

Dr. Eckener's Ship Will Fly West From Lakehurst; Plans to Make Stop at San Diego

WASHINGTON, May 8. (P)—The Postoffice Department was advised today by American diplomatic officers in Germany that plans are being made for the Graf Zeppelin airship to make a round-the-world trip.

A trip from Germany to the make the 'round-the-world trip an United States and back is due to start May 15, after which, the Postofice Department is advised, the airship will return to this country to start circling the globe.

The commander of the Graf Zepelin, Dr. Hugo Eckener, is said to have stated to American representatives in Germany that he wishes to and China via the Hawatian Islands.

GRID STAR KILLED BY **POLICE GUN** APPROVED

Edwin Hill, N.Y.U. Athlete, Shot in Playful Struggle **Mediation Board** for Officer's Pistol

NEW YORK, May 8. (P)—Edwin Hill, star halfback of New York University's great football team of last fall, was shot and killed last night in a playful struggle for a policeman's revolver. The shooting occurred outside a police booth near the college campus, a favorite congregating place for the students. The patrolman, Joseph Green, was absolved of criminal blame by Dist.-Atty, John E. McGeehan of Bronx county, but was suspended from duty.

duty.
Green said Hill and John Bunyan,
a former New York University
guard, had stopped at the booth to
talk to him when Hill spied two
girls strolling down the street and
asked the policeman for his nightstick "to chase them away."
Bunyan corroborated the policeman's story. Hill was hurried to
Fordham Hospital, but was pronounced dead on arrival.

City of Savers

Pacific States Savings is a "City of Savers" with a population about the size of Fresno. It contains men, women, boysand girls from every walk of life. Some with \$50,000 or more to their credit; some building their capital through small monthly savings.

It contains, too, insurance companies, title companies, and banks.

Of course these people and institutions are not grouped together geographically they are in all parts of California. But they are grouped together by their common insistence on proved safety, convenient accessibility and attractions in the convenient accessibility and attractions are not accessible to the convenient accessibility and attractions are not accessible to the convenient accessibility and attractions are not grouped together geographically are not grouped together by their common insistence on proved safety. tive interest for their funds.

If these are your requirements, you will be welcome in the "City of Savers" known as Pacific States Savings.

SACRAMENTO, May 8. (P)-

Gov. Young tonight vetoed a measure introduced by Senator Lyon of Los Angeles designed to facilitate the workings of the Improvement Bond Act of 1911.

The bill contained technical defects, the Governor said, and the author requested him to withhold his approval. Another measure carrying the desired amendments is en route from the Assembly, the Governor said.

Assembly Constitutional Amendment No.
17. Clowdaler, no jugar of the State, Suprems. Assembly Constitutional Amendment No.
17. Clowdaler, no jugar of the State, Suprems. Assembly Bull No. 188. Easley, Coptra
Couta country government bill.
Assembly Bull No. 1187. Klime, authoristor park pupposas.

men left Mexico City today under strong military guard for Islas Marias, the penal colony which Mexico maintains off the west coast.

The newspaper Universal Grafico stated that in the list of political prisoners thus sent into exile was Mother Conchita Maria Concepcion Acevedo de la Liata, who was convicted of complicity in the assassination of Geh. Alvaro Obregon, President-elect of the country. She is asserted by the government to have been the "intellectual author of that crime.

Many of the deportees were charged with niding the religious insurgents of the Central Western States. Others were convicted of explonage or political offenses.

Today's contingent of women is the first to be sent to the penal colony, one of the islands in the group having only recently been equipped for women prisoners.

The military guard was especially heavy because the train will pass through the heart of the territory in which religious insurgents have been bombed and attacked there frequently. The prison cars were headed for Mansanillo, whence the prisoners will be sent to the prisoners were headed for Mansanillo, whence the prisoners will be sent to the prisoners were contracted there frequently. The prison cars were headed for Mansanillo, whence the prisoners will be sent to the islands by boat.

in Rum Killing

WASHINGTON, May 8. (4)—
The District of Columbia grand jury refused today to idict Policeman Clyde O. Rouse for the fatal shooting of Herman Fleming, asserted rum runner, during a spectacular chase April 24 in which Fleming used a smoke-screen in his efforts to escape.

The action exonerates Rouse of ficially of blame in the killing, which precipitated heated debates in Congress in which his action was both approved and condemned.

of a Per

They are powered by BUICK engines -with actual 72 H. P. for the medium-duty models, and actual 89 H. P. for the heavier duty models. (8 optional gear ratios.) Mere words here about "smoothness", "long life", "reserve power", cannot add anything to the fame which BUICK won long ago, on these counts.

2 In this BUICK-powered series of General Motors Trucks there are 33 types of different basic Straight Rating capacities-8,000 lbs. to 18,000-covering the entire range of medium-duty and heavier-truck duty.

All the qualities a man means when he says "modern truck performance" first came into existence with BUICKpowered trucks. The first BUICK-powered trucks established new ideas of truck performance. Of speed with safety. Of uninterrupted operation. Of work-capacity. Of economy. Today's larger, more powerful BUICK engines make it possible for the user of heavy-duty equipment to profit by the same modern advantages.

4. Every BUICK-powered General Motors Truck has 4-speed transmission; and 4-wheel brakes specially designed for safe truck-operation in any traffic.

Definite advancements in truck design and construction give these beyond any demands of your work. Frames, axles, axle-shafts, springs, crankshafts, propeller shafts every detail. Yet we know of no other trucks, of comparable capacities, that can match them in the ratio of horsepower to chassis weight.

In features which increase efficiency, reduce costs—or both!—again they command investigation. Every one of the 33 types has: fuel pump, A. C. fuel filter, oil filter, air cleaner, Alemite-Zerk chassis lubrication, thermostatic temperature control (in radiator), counter-weighted crankshaft with harmonic balancer, a practically straight power line under any load-condition. These are a few!

Smart, modern appearance is another advantage the shrewd truck-buyer of today does not overlook. These trucks

strikingly prove that huskiness can still have the handsome appearance that wis good will and favorable public opinion.

S Prices pass on to buyers the of unusual manufacturing permit poker-playing on trade-ins. Ful-fair trade-in allowances are made-in no excess allowances. (Time payments financed through Y. M. A. C. pien, at lowest available rates.)

It will certainly pay any truck owner to check up on these facts. A quick and thorough way to do so is affered bales. A way you can employ at once.

-based on the most modern factory facilities, the swiftest retail turnover, the lowest profit-margin officially on record in the industry! . .

OREMAN and CLARK clothes are designed by five men . . . and by 500,000 men! Five famous designers sketch them in New York . . . . with double resources to draw on! The latest style notes of New York and London on one hand. The personal style preferences of half a million F & C wearers—coded, classified, analyzed—on the other! And a quick, close coupling of enormous resources that spin into action when their designing pencils lift! Three weeks from the day a new model is sketched and tailored . . . . it's yours to own . . . . (the clothing industry's to copy) .... in any Foreman and Clark upstairs store from coast to coast.

It takes five giant daylight plants, built and owned by Foreman and Clark, humming 52 weeks of the year, to keep the stream of F & C clothes pouring daily to these upstairs stores! "The smartest cut in clothing fashions, the shortest cut in clothing methods, the deepest cut in clothing costs" . . . . they're yours—at Foreman and Clark. The lowest certified profit in the clothing industry backs them up! The lowest "selling cost" on public record backs that up! The largest public of enthusiastic wearers in America alone make it possible!

#### Hand-tailoring as a Production Creed—not an Advertising Slogan—

-in five giant Foreman and Clark factories. The Foreman & Clark story of hand-craftsmanship—famous among clothing men-starts at the

benches of 3000 workers in our daylight plants . . . not in the retail advertising of our upstairs stores. Thousands of our customers have

visited our factories-in Watervliet and Troy, (near Albany,) N. Y., in Sayre, Pa., in New York City. The public is cordially welcome.

#### You cannot buy a wrong size or wrong model in any F & C Store...

We can afford to be critical of customized fitting in Foreman & Clark stores—with double the variety of

Slims Stouts Shorts Short Stouts-Long Stouts

No F & C salesman is permitted to sell a suit which cannot-first of allbe perfectly fitted. Enormous stocks render selection simple.

#### F&C Service-after-purchase

We urge it upon you—you need never request it of us. The spirit behind any service "makes" it or flatly contradicts it!

#### Trade Upstairs and Save \$10

was originated by Foreman & Clark,
—nationalized by Foreman & Clark, and contributes over a million dollar savings in rent!

#### Foreman & Clark guarantee to save you \$10 over any 1-store or chainstore clothing, upstairs or down

and we back that guarantee with overwhelming proof!

#### THE REPORT OF THE PROPERTY OF

FINANCIAL INDEX

# Bureau Warning

California investors were warned by the State Corporation Department in an announcement here today of the operations of a small army of asserted highgraders who are reported to have obtained many thousands of dollars in the last two weeks by trading worthless coupon bonds for reputable bonds.

Complaints of the activities of the purported swindlers, have reached the Corporation Commission from Naps, Petaluma, Sants.

Rots, San Jose, Paso Robles, Modesto and Fresno, where tradeout transactions, the announcement revealed, involve losses from \$200 to \$5000 a victim.

# Car Loadings

WASHINGTON, May 2. (Exclusive)—Loading of revenub freight for the week ended on the 27th instabilated 1.051,728 cars, the car service division of the American Railway Association announced today. This was the second time so far this year that loading of revenue freight has exceeded the 1.000,000-car mark in any one week, being an increase of 47.572 cars over the preceding week this year, with all commodities showing increases over the preceding week this year, with all commodities showing increases over the week before. Compared with the corresponding week last year, loading of revenue freight for the week was an increase of 30.152 cars above the corresponding week last year, loading of revenue freight for the week was an increase of 30.152 cars above the corresponding week in 1977.

Willson Airport. An airport will be constructed on the north side of the Ohi River directly across from Louisville. The airport will be used as a transport terminus as well as for private pilot and student flying.

Bettis Airport. The present Bettis Field, which is situated about 8 miles some of Pittsburgh, will be enlarged to an area of approximately 185 acres. The airport now serves as the Pittsburgh terminus of the Cleveland-Pittsburgh armail route. Curtiss Airports Corporation will have a controlling stock interest in this airport.

Herrick Airport. Herrick Airport will be constructed on approximately to acres of land in the Gates Mills suburban district, and will be used as a base for sightseeing trips and for privately owned planes.

Steinberg Airport. An airport, now under construction, on approximately \$10 acros of land near East St. Louis. The airport, it is expected, will be a regular station on the Coast-to-Coast service of the Transcontinental Ar

Alameda Airport. The present Alameda Airport which is situated at the Alameda Mole, across the Bay from San Francisco, will be enlarged to a area of approximately 375 acres. The airport is the present terminus of the Maddux Air Lines Co. and it is intended will become the San Francisco terminus of the Transcontinental Air Transport, Inc. Curties Airports Coperation will have a substantial stock interest in the ownership of this airport

The following information regarding Curtiss Airports Corporation is summarized by Mr. C. M. Keys, Chairman, and Mr. Walter S. Marvin, President, from their letter of May 8, 1929:

BUSINESS: Curtiss Airports Corporation has been organized under the laws of the State of Delaware, for the purpose, among others, of acquiring, owning and operating either directly or through the ownership of all or part of the stocks of subsidiary or affiliated companies, a group of strategically situated airports throughout the United States. While the Corporation proposes to engage primarily in the above business, its charter provisions, among other things, permit it to engage in all forms of flying activities, including the carriage of passengers, freight and express, to manufacture and deal in aircraft, motors and accessories, etc.

PITALIZATION: Upon completion of this financing the Corporation will have no funded debt or preferred stock, the capitalization being as follows:

The Capital Stock to be presently outstanding will be deposited under a voting trust agreement dated as of May 7, 1929, extending unil May 1, 1939. The voting trustees will be Messrs. C. M. Keys, J. Cheever Cowdin and James C. Willson, in whom the voting power as such stock will be vested.

The initial pro forma balance sheet of the Corporation, after giving effect to the issuance of 2,500,000 shares and the proposed acquition of properties or securities, will show total net assets of approximately \$25,000,000 represented principally by cash, investment

PROPERTIES: The Corporation proposes to acquire, either directly or through companies in which the Corporation will have substantial stock interests, airports and airport sites or substantial interests in the ownership thereof as listed below. It is proposed that all these airports will be owned by the Corporation or such companies in fee simple with the exception of certain minor leasehold interests. The following airports have been carefully selected for their strategic location and for their value as air terminals by the operating personnel of Curtiss Flying Service, Inc., and have been approved by the executives of the Curtiss Keys group. The airports will be at the most modern type and design. Construction in most cases will be under the general supervision of the Stone & Webster Engineering Corporation, and Mr. Kenneth Franzheim, architect.

LOUISVILLE

PITTSBURGH

ST. LOUIS

SAN FRANCISCO

NEW YORK CITY DISTRICT

Curtiss Airport. The new Curtiss Airport, being constructed on approximately 120 acres on Sunrise Highway at Valley Stream, Long Island, which will be used primarily as the base for Curtiss Flying Service, Inc.

New York Air Terminals, Inc. Curtiss Airports Corporation will have a stock interest of approximately 22% in New York Air Terminals, Inc., which is constructing an airport at Syracuse, N. J. New York Air Terminals, Inc., in addition, leases Hadley Field at New Brunswick, N. J., and proposes to construct bases for sea planes and amphibians at North Beach on Flushing and Bowery Bays and other locations in the vicinity of New York City.

Marvin Airport. An airport of about 440 acres will be constructed at Fairfield, N. J., approximately 7 miles distance from Paterson, N. J., and an equal distance from Montclair, N. J., which will be used principally as a base for private pilot and student flying.

CHICAGO DISTRICT

Reynolds Airport. An airport of approximately 430 acres of land in the Glenview district about four miles north of the Chicago city limits and less than 10 minutes distance by automobile from the Chicago Loop and 10 minutes distance by amphibian shuttle service from the business section on Michigan Avenue, which has been arranged for. Curtiss Airports Corporation will have a controlling stock interest in this field. PHILADELPHIA DISTRICT

Central Airport. Curtiss Airports Corporation will acquire a substantial stock interest in Central Airport, Inc., which owns and will operate an airport at Camden, N. J., directly across the Delaware River from Philadelphia. The airport covers an area of 190 acres and, it is expected, will be used by Pitcairn Aviation, Inc., operators of the New York-Miami air mail route and by Ludington-Philadelphia Flying Service, Inc.

Main Line Airport. An airport of 280 acres will be constructed at Paoli, Pa., situated 18 miles west of Philadelphia, to serve as an important junction for the transport lines which extend or will extend from New York to Pittsburgh, New York to Washington and Philadelphia to Pittsburgh. Curtiss Airports Corporation will have a controlling stock interest in the ownership of this field.

Baltimore Airport. An airport of approximately 261 acres will be constructed near Druid Hill Park bordering on the City limits of Baltimore. The Baltimore Airport will be situated on the main air line extending from New York to Washington, D. C., and other southern cities.

BLAIR & CO., INC.

HEMPHILL, NOYES & CO. HAYDEN, STONE & CO.

NORTH AMERICAN AVIATION, INC.

Grand Central Air Terminal. An airport covering approximately 180 acres at Glendale, Cal., serving the business and residential districts of Los Anglis and serving, in addition, the cities of Hollywood, Beverly Hills and Pandest, Grand Central Air Terminal will become the Los Angeles terminus of Transport, Inc. The airport is now used as a base for transport and taxi service by Maddux Air Lines Co. and Pickwick Airways.

If for any reason the Corporation shall not acquire the proposed interests in the above airports, it reserves the right to substitute others or to apply any moneys intended for the acquisition of such interests to the development of airports in which it shall acquire interests.

REVENUES: Curtiss Flying Service, Inc., proposes to undertake the operation of service stations, sales agencies and schools at the falls

The revenues of the Corporation will be derived principally from two sources: (1) Flying Operations, including tariffs for the use of facilities as terminal ports, exhibition flying, taxi and sightseeing service, hangar rentals, mechanics' service, etc., and (2) Agency Coccessions and miscellaneous revenues including admission charges, automobile parking space, automobile taxi service, etc.

Price \$12.50 per share

The statements presented above, while not guaranteed, have been obtained from sources believed to be reliable

oil companies depend on this patented process

Shell, Union, Standard, Associated, Texas, Magnolia, and practically all other major oil companies in California or in the East, are regular mera of the patented processes for dehydrating oil which are controlled by Petroleum Rectifying Corporation.

This Corporation during 1928 received royalties from over 98% of the California cil requiring dehydration, which was approximately 27% of the entire output of the State; and in addition from more than thirty-two million barrels of cil treated by is process in the midcontinent fields.

coparation's Common Stock presents a decidedly attractive investment both from a condoint of present income and potential appreciation. At the present price of \$21.50 per share, it is selling at only 6½ times its average annual net profits over the 5-year period ended December 31, 1928. It is contemplated that divisionally will be paid at the rate of \$1.40 per share annually, which is over 6½% at the present price. Application will be made, it is expected, to list this issue at the Angeles Stock Exchange.

PACIFIC HARDSTONE BRICK CORPORATION

sale of this stock will be used in the establishment here of a factory to manufacture "HARD-STONE" brick, a German discovery. "HARD-STONE" is not a clay brick or a cement brick, but a product that is revolutionizing its own particular field of endeavor. Credit for the development of this industry must be given entirely to the Maschinenfabrik Buckau R. Wolf, A. G., of Magdeburg, Germany (using the world-famous Rohrig & Konig process.) They employ 6500 people in their factory.

EUROPE: Germany, being the home of "HARDSTONE" brick, has experienced a phenomenal growth of this industry in recent years. There are over 300 successful "HARDSTONE" brick factories operating in Europe today. During the past two years six enormous "HARDSTONE" factories were erected in Russia. Orders were placed immediately for six additional factories to be erected this spring. The German Government compares "HARDSTONE" with the very best clay brick. Their chemists and engineers agree that "HARDSTONE" will last for centuries.

U. S. A.: The first factory using this special

U. S. A.: The first factory using this special machinery in America was built three years ago machinery in America was built three years ago in St. Paul, Minn. Large buildings, such as Sears-Roebuck, Calhoun Beach Hotel 18 stories high, schools, water tower, theatres, etc., have been constructed with this "WONDER BRICK." "HARDSTONE" was used in the new Pillsbury Flour Mills at Enid, Oklahoma, a dis-

BUSINESS: The proceeds derived from the sale of this stock will be used in the establishment here of a factory to manufacture "HARD-STONE" brick, a German discovery. "HARD-brick in Los Angeles. brick in Los Angeles.

METHOD OF MANUFACTURE: This process is practically automatic, thereby effecting a tremendous saving in fuel, labor, losses due to breakage, etc. The result is a perfect brick produced within a few hours ready for use. "HARDSTONE" is made in a variety of colors. Architects, builders and contractors give their unqualified endorsement of this brick. Its uniformity in size, high-crushing strength, low water absorption and its resistance to acid and fire make it one of the greatest improvements in solid building materials for centuries past.

INVESTMENT FEATURES: The abundance

INVESTMENT FEATURES: The abundance of cheap raw materials here in addition to the tremendous consumption of brick, Southern California affords a wonderful opportunity for a factory producing this modern brick, and according to the remarkable accomplishments of other "HARDSTONE" brick factories we firmly believe that those who avail themselves of the opportunity to purchase this stock on the above terms will realize exceptional returns from their terms will realize exceptional returns from their

MANAGEMENT: A reputable board of di-rectors will conduct the activities of this corpor-ation. Expert engineers of proved ability are connected with this enterprise. Under the di-rection of these men the highest efficiency will

easiness over the possibility of an increase in the New York discount rate tomorrow, and it was taken for granted that brokers' loans would show another substantial increase, particularly in view of the recent volume of new stock offerings.

Aside from less cheerful reports from the reparations conference, the day's news was generally favorable. American Sugar Refining resumed common dividends on \$5 annual basis, after a lapse of more than a year. The steel trade reviews said that no decline in production had appeared. Iron Age's composite price for pig showed an advance of \$0 cents to \$18.67 s ton.

General Electric was a strong point, rising 11½ points to a new high price at 263. Tobacco stocks improved on rumors of conferences of important leaders in the industry leoking to an end of the cigarette price-cutting war. Universal Leaf rose 6 points to a new high, and United Cigar Stores preferred creased 100.

Some of the oil shares were well

New Locations

New Locations

The Dome Oil Company is reported to have made a new location to drill on the northwest quarter of Sec. 20, 10-35, west of the Santa Maria field in the Guadalupe district of Santa Barbara county.

In the Belridge district, J. H. Kennedy is reported to have made a location to drill a wildcat on the southeast quarter of Sec. 5, 29-20.

The Ozena Oil Company has just made a location for its No. 2 well on Sec. 27, 29-21. In the Belridge district, as an offset to its No. 1 well, which is producing about fifteen barrels of oil from a depth of 2000 feet.

The Despen

The Carlin Smith No. 1 wildcat of the Western Drilling and Producing Company, near Manhattan Beach, which has been idle for several weeks, may be deepened, according to reports. Bottom of the hole is at 5303 feet, and indications are that it will be drilled another 1500 feet.

The Bolton No. 1 well, situated in the Huntington Beach townsite area, is running casing today preparatory to a production test. Bottom of the hole is at 3630 feet. The Day No. 1 well, owned jointly by Western Drilling and the Eouthwestern Oil Company, is drilling ahead in brown shale at 2900 feet.

ing drilled by Miley in the same area, is drilling ahead at 1250 feet.

Permits to Drill

Fifteen permits to drill wells have furt been issued by the State Mining Bureau, it being twelve less than the number for the previous week.

Of these issued two are for wells at Signal Hill, one each for Potrero, Santa Fe Springs and Huntington Beach, one in the Ventura-avenue field, one at Summerland, one at Elwood, one in San Luis Obispo county and six in the fields of Kern county. week.

Of these issued two are for wells at Signal Hill, one each for Potrero, Santa Pe Springs and Huntington Beach, one in the Ventura-avenue field, one at Summerland, one at Etwood, one in San Luis Obispo county and six in the fields of Kern county.

NO DELAY CASHLOAN YOUR STOCK Listed or Unlisted Annually STOCK and BOND QUARANTEE CO. SURETY BOND

This is not clever talk!

WE HAVE A BIG INVESTMENT.. in public confidence.. attached to the building-loan industry.. in the State of California.. by reason of the State of California records.. held by the MUTUAL Building and Loan Association of POMONA.

We have the right, the duty—and the courage to inspect the varying types of material now seeking to become part of the building-loan structure of the State of California. Some of that manmaterial won't pass the test. Speculative flaws. Brain-cracked loan methods. Knot-holes of getrich-quick ideas. AND NO IDEALS.

IN THIS BUILDING-LOAN BUSINESS . . safer financial structure has ever been perfected .. where deep foundations of experience and con-servatism . . have been builded . . as instanced by 361/2 years with but ONE loan-loss . . for the MUTUAL Building and Loan Association of POMONA.

Other old-fashioned building-loan associations of California have helped establish a wonderful record for the State of California. Presenting what seems to be a chance for "profitable promotion" to those who like to follow the shadow of respectable finance.

THERE ARE NO QUICK PROFITS IN THIS INDUSTRY . . nor is there any substitute for safety and conservatism . . because the small margin of profit . . must be secured solely by good loans . . and economical overhead . . as YOUR commonsense tells you.

Euclid said there was no royal road to mathemat-ics. But these smarter exploiters of modern finance use their royal imaginations and O.P.M. (Other People's Money) as a modern substitute for mathematics. Aviation pilots of finance, with one hour's experience! Taking some one "for a ride."

You've seen such foolhardy crashes smirch legitimate industry before. Holding back aviation. And we resent inexperienced financial aviation in the building-loan industry. So does the Building Loan Commission. And the banks. And the MUTUAL Building and Loan Association of POMONA with \$12,750,000 resources, safeguarded by \$2,800,000 capital, surplus and reserve. Plus State records.

NOTAS TELEGRAFICAS

tal Doncella
ORLEANS (Francia), Mayo 8,—
Esta añosa ciudad francesa ha celebrado hoy el quinto centenario de
su emancipación de las manos de
Inglaterra por las de Juana de Arco, la doncella de Orleans.
Muchos miliares de personas presenciaron las impresionantes ceremonias con que se rememoró el
trascendental suceso, de las que una
mitad fueron civiles y otra mitad
religiosas. Concurrieron a la solemnidad el presidente Doumergue, el
primer ministro Poincaré, el mariscal Petain, el general Gouraud, y
otros destacados personajes franceses.

As de Balompié Muerto por el Revólver de un Policia.

NUEVA YORK, Mayo 3.—Anoche retorando amistosamente con un policia, Edwin Hill, brillante semi-zaguero, el otofio proximo pasado, del gran equipo de balompié de la Universidad de Nueva York, recibió un balazo del revolver del guardia, y perdió la vida. La desgracia ocurrió fuera de un garitón de policia cercano al campo del colegio, y sitió de reunión favorito de los estrudiantes. El guardia de patrulla, Joseph Green, ha sido absuelto de toda culpa por el fiscal John E. McGeehan, del condado de Bronx; pero se le suspendió en el servicio.

Dealaró Green que Hill y John Bunyan, ex-guardameta de la Universidad de Nueva York, se nablan detenido en la caseta a chariar con él, cuando Hill vío a dos muchachas que paseaban por la calle, y le púdió al policia su palo de mando para perseguirlas. Como el guardia no accediera a lo pedido, comenzó Hill a luchar con él amistosamente, y le sacó de la pistolera su revolver reglamentario. Al tratar Green de recobrar su arma, esta se descargó, y el proyectil le atraveso el pecho isquierdo a Hill, matándolo en el acto.

Bunyan corroboró el aserto del guardia. Hill fue trasladado rápidamente al hospital de Fordham; pero fue declarado bien muerto al liegar alli.

Colegial que Desaparece Tras un Paseo en Canoa

SEATTLE, Mayo 8.—Hoy se encontró una canoa volcada en el lago de Washington, adyacente al Distrito de la Universidad, y súpose luego que Jack A. Hillier, un estudiante de Hollywood, que cursaba en el Colegio, de Administración Mercantil, había desaparecido desde anoche, tras haber alquilado un canoa.

muchacha.

En la hermandad Alpha Sigma
Phi, a que pertenecia Hillier, se dijo
que éste no había regresado alli
anoche, ni estado hoy en el dia, y
que no se sabía donde andaba.
También informaron los miembros
de la hermandad de que se nabía
avisado lo de la desaparición al sefior y la señora Forest Hillier, de
Hollywood, Cal., padres del estulas anicales.

Las autoridades universitarias se
ocupan ya en averiguar si ha desaparecido alguna muchacha estudiante de la universidad.

NOTAS LOCALES

Veteranos Holandeses que Regresan a su Tierra
Tras dieciséis años de servicio activo entre los Aljeh, naturales de las Indias Orientales Neerlandesas, ha llegado a Los Angeles, en camino para Holanda, el teniente coronel Gerard Van Eck, del ejército colonial holandés, quien ha recibido órdenes de ir a prestar servicio en la metrópoli. Con él viene el teniente coronel H. J. Kniper, otro veterano del ejército de los Países Bajos en las Indias. Ambos se hospedaron en el hotel Bitmore y salen hoy para Nueva York.

el hotel Biltmore y salen hoy para Nueva York.

Durante cerca de cincuenta y seis años ha habido continua guerra entre las tribus de los Aljeh y el ejército holandés, y hasta muy recientemente no ha tenido punto final. Dice el coronel Van Eck que ya el canibalismo ha desaparecido, que la civilización está ganando terreno, y que los naturales tienen trabajo-productivo en los plantios de hule. Conferencia en Castellane

El doctor Manuel P. González, de la Universidad de California en Los Angeles, dará una conferencia el viernes próximo, 10 de Mayo, en la Biblioteca Pública de esta ciudad, a las 8 p.m. Este conocido profesor y conferenciante disertará sobre José Martí. Su conferencia será la última de la serie de doce en español, que organizó la Biblioteca Pública de Los Angeles para este curso.

gested subjects on the Constitufrom sar required of every student
of the school. Delivery of this paper was required of every student
of the school. Delivery of this paper was required of every member
of public-speaking classes and others were grouped by classes to deliver their orations if they so desired. The school, the Park City
High School, in the mining district, worked out its own eliminations by a series of interclass contests.

It was estimated that 40,000 people attended the contests, one-tenth
of the State's population. Justices
of the Supreme Court of Utah were
judges of the State finals. There
were 2700 in attendance at these
finals, 200 in excess of the seating
capacity of the hall, and special
police were necessary to handle the
crowd, which remained outside
awaiting the decision of the judges.
The contest received the unanimous
support of all educators and the
hearty indorsement of Gov. Dern,
who held a special reception for the
State finalists on the day of the
contest.

All school champions received enengraved certificates of championship
on parchment paper. All district
champions were awarded medals
and trips, with all expenses paid, to
the State finals. The schools they
represented received shields of gold

# SHRINE FLOATS COMPLETED

Secretary of Commerce, announces that
it is distinctly not the policy of government to interfere with business. Conditions sometimes make it necessary for a
show of official regulation—for the good
of the industry itself, but on the face of
things the government wants business
to provide its own ethics and regulate
itself. The administration will adopt a
policy of hands-off and will only lend
such aid and assistance as it can bring
without friction.

GETTING RESULTS The President and his Cabinet quietly invited the executives of the American railroads to make a timely and reasonable reduction on the freight rates on grain from the main warehouse points to the seaboard. The railway offers took hold of the problem serious. and reasonable reduction on the freight rates on grain from the main warehouse points to the seaboard. The railway officers took hold of the problem seriously and patriotically and are making reductions that will average around 20 per cent on several items and schedules. There was no brass band or pressagenting in this deal. It was a part of the day's work. But if the average poliblician or professional farmer had accomplished this he would except to earn an overstuffed bust in the hall of fame. If the Senators had gone after the rail-proads there would have been a fight and nething accomplished. Here we have peace and results.

One reason for the great increase of the consumption of California oranges in Great Britain is that an enterprising distributing company of London has established a large number of truit stands all over the British Isles. This has been done on the representation of Southern California shippers that they can supply oranges in large quantities for such stands. Then, too, the use of orange juice has greatly increased in England. During the epidemic of influenza this juice was in great deamand, as it was complished. Here we have peace and results.

Thus it will be seen that those who

Although marked by more than the usual number of upsets attending such an event, Tuesday's primary election on the whole showed discriminating action by the fraction of the registered electorate which want to the registered electorate. by the fraction of the registered electorate which went to the polls. A more representative and in specific cases possibly different individual results might have occurred if a larger percentage of the electorate had participated.

However, the natural regret felt by the adherents of John R. Quinn that their candidate was not nominated for Mayor should be mitigated by a knowledge that they supported a good man, that he remained true to himself and to his principles and that the Culma and his principles, and that the Quinn-cam-paign was in all respects clean and free from any semblance of political skullduggery.

The two mayoralty candidates standing highest among the list of fourteen aspirants—John C. Porter and William G. Bonelli—ran fairly consistently in all sections of the city as first and second on the ticket. Among the support ers of each were and are men and women representative of the finest element en representative of the finest elements of the community. The run-off contest between Porter and Bonelli will afford opportunity for more careful considera-tion of their relative merits than could be accorded any single candidate in a field as large as that appearing on the primary ballot.

Running so far ahead of his three op-Running so far ahead of his three op-ponents as to come almost to the point of winning an election on Tuesday, Er-win P. Werner received in the primary a substantial indication that the people of Los Angeles consider him to be the best qualified candidate for City Attorney. He will have Peirson M. Hall as his opponent in the June election.

Results in the various Councilmanic contests, with but few exceptions, indicate that the next Council will be a substantial improvement over the present body through the introduction of better timber and the elimination of some of the weaker incumbents. Five of the present Councilmen, Webster in the Third District, McAllister in the Sixth, Parts in the Saventh Ingram in the Davis in the Seventh, Ingram in the Tenth, and Jacobson in the Thirteenth. Tenth, and Jacobson in the Thirteenth, were re-elected. In the Second District Col. Thomas F. Cooke was elected, re-ceiving more votes than were cast for all four opponents.

In the ten districts where the two high candidates will enter the final election contest opportunity is afforded for advantageous selection.

The contest for the four vacancies on the Board of Education resulted in the outright election of two candidates indorsed by the Citizens' School Committee—Mrs. Carrie Parsons Bryant and Mrs. Elysabeth 'Louise Clark, incumbents—and in a tremendous lead over the committer's other indorsees, Harry H. Baskerville and Arthur W. Eckman.

kerville and Arthur W. Eckman.

Backerville and Eckman received less than a majority of all votes cast, but had more than twice the number of votes received by the two Socialist party members, George S. Grant and Irene Smith, who will appear with them on the June ballot.

Due to the fact that five incumber municipal judges were re-elected with-out opposition and that three of the five incumbents meeting opposition defeated their adversaries in the primary, there have been saying that orange produc-tion in this State soon would be over-done, and that there was little use in will be but two judicial contests in the

Anal election.

These include a run-off for judicial office No. 7, between the incumbent, Guy F. Bush, and Attorney Perry Thomas, and the incumbent, George W. McDill and Attorney Wilbur C. Curtis in dicial promising for our orange growers. This expansion of the British trade doubtless

division ten.

City Controller Myers was re-elected in a veritable landsilde over his sole opponent, John R. Gaudin, receiving four votes to one cast for the defeated candidate.

FORD ON PUBLIC FINANCE Ford's famous dictum that is the bunk" doubtless explains came to rediscover the greenby of public finance, without recognitions.

All contests undecided in the pri-mary will be determined on Tuesday, June 4.

iffornia. In this connection it might mentioned that this is a dry State. She politicians have the idea it with proper nursing the voter can brought to the polls when needed.

RESS REFORM

The fashion folks intimate that se hostess pajamas are a wonderful litting to the modern wardrobe. As a source of confusion and proper man can guess it if uncertainty which of itself probably terest-bearing bonds for national improvements, Ford would issue simple government notes insisting that all that gives money its value is the government stamp on it anyway and that in this manner the government can save intersusal drawbacks attendant upon this story of the greenbacks issued during the civil war, Mr. Ford is unaware of whom the average voter knew little or the fallacies of his theory. near as the mere man can guess it if the bell rings when the lady is in her pajamas she just palls a couple of strings and there she is in a reception gown. It sounds like something that might have been invented in Hollywood.

The might have learned from sure-pajamas she just palls a couple of strings and there she is in a reception gown. It sounds like something that might have been invented in Hollywood.

The might have learned from sure-pajamas she just palls a couple of strings when the lady is in her contributed considerably to the small-mind, that what gives paper money to voting blindly. That the results were as desirable, on the whole, as they were is reason for congratulation.

The might have learned from sure-pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings when the lady is in her pajamas she just palls a couple of strings w

ORANGE EXPORTS INCREASE
Five years ago Great Britain was consuming comparatively few California oranges, as all-water shipments from this port to Liverpool and London had not yet included fresh fruit. In the last few years the transportation of oranges through the Panama Canal to British ports has been increasing and some large shipments have been made, notably in 1927; when they totaled 540,000 boxes.

bly in 1927; when they totaled 540,000 boxes.

Within a recent fortnight 184,000 boxes were dispatched to the United Kingdom, following a shipment of 30,000 boxes a few months before. One British ship, the Albion Star, sailed from Los Angeles a few days ago with a record shipment of 65,000 boxes, and another, the Royal Mail steamer Nebraska, took out 69,664 boxes, thus raising the record a second time. But both of these remarkable shipments will be exceeded soon by one of 80,000 boxes, and there is a report that still another will reach the enormous figure of 100,000.

That the 1927 total of orange shipments to the United Kingdom will be more than doubled is a second time. But both of these remarkable shipments will reach the enormous figure of 100,000.

That the 1927 total of orange shipments to the United Kingdom will be more than doubled is now confidently estimated. Every indication points to the shipment of from 1,250,000 to 1,500,000 boxes this season.

Our special medal for keeping everything appropriate goes to the Lincoln Theater, for colored people, which is to have some colored films.

Colorful Statistics All kinds of wild statements are

made as to the number of Mexicans, Filipinos, Japanese and so on in Los Angeles. The The tion recently made an esti-mate, based on school census, ber of Commerce accepts as the best available.

gives our population as follows: White, 1,152,100; black, 34,820; Chinese, 4879; Indian, 2129; Filipino, 2220; Japanese, 41,400; Mexican, 189,860. The Filipino employment agencies, however, say there are more than 6000 Filipinos here. But as most of the Filipinos are unmarried houseboys the school census may be a faulty in-dex to that population and yet ap-proximately accurate as to the others. The total population, as estimated on the school census, is 1,427,480.

Scoffing at Tradition?

"Fame largely is a result of chance," notes the office cynic. "What a lucky thing for that Dutch boy who stuck a finger in the dyke and saved his city that he only had an ocean to hold back, instead of the Mississippi River." The Way of Operations

Cartoonist Gale is depressed be-cause every time he starts to tell about his surgical operation other people break in and tell about much

Cheer up, Ted. After a few more months and tellings, yours may great-ly increase in danger and seriousness,

One Little Trouble With Archeologists

The great fu-ture of archeology clusively with the buried past can look forward to a future—will lie in the American vest, it is said. The dry air

of our deserts, preservative of ancient things, and the fact that no teeming millions of feet of intervening generations have wiped such relics out, makes those deserts the world's greatest treasure trove for evidence of man's steady climb from unthinking savagery to near-civilization. So the

came to rediscover the greenback idea of public finance, without recognizing it as a rediscovery. Instead of issuing interest-bearing bonds for national im-

We have cherished steadfast faith in the principles of the League of Nations. But we can't help doubting that any program can save people from their own suicidal follies when we read lies when we read that it is esti-mated 2000 Californians will be killed in automobile accidents this year. of Congress counterbalancing each other, the legislative, executive and ju-

dicial functions in nice adjustment, were deliberately planned to forestall planting more trees, as their fruit could not be sold at a profit, have been all misuse of power. An atom magnified 10,000,000,000 times would be less than three feet in diameter. Yet the breaking up of that atom would release inconceivable units of energy, say the scientists. Evidently a will be followed by an increase in ex-ports to various other parts of Europe. wise Providence has withheld many pos-sibilities from humanity over against a Ford's famous dictum that "history is the bunk" doubtless explains how he

more trustworthy day.

With half of the human race in dire straits, America, wealthy and aloof, is a target for hatred. Shall we be able to clear the ditch dug by other nations on every side in their hunger to share our riches?

Are we riding for a fall?

By James J. Montague
It's a joy to follow a winding trail
Afar from the open road
And to hear the call of the questing quail
And the pipe of the tiny toad,
Where the rabbits swish through the

rustling grass
As they race to the wood beyond
And you hear the plunk of the leaping

From the greenery bordered pond. But it's still more joy for the average man
When the spring perfumes the air
To doll on the seat of a swift sedan
And gaze at the world from there.

There's a thrill in a stroll over dale and

hill
In the dusk of the gathering gloam
When the eerie voice of the whip-poorwill
Is bidding his wife come home,
Or to wander at midnight, afar from town Half lost in a walking dream Where the stars are glittering upside

down In the breast of a placid stream. But it's also pleasant, and not so damp In an easy chair to lie And to gaze at the silver and shining of the moon, in a peaceful sky.

It is fine to dash through the snowy spray With the wind in the bellying sail When the wind comes out of a sky And awash is the leeward rall, To watch the flight of the hurrying clouds

clouds
The surge of the hurrying seas
And to hear the hum of the tautened
shrouds
As they sing in the freshening breeze.
It is also fine on the grass to sprawl
And gaze up at a sky of blue
And this—as you possibly may recall—
Is a blamed sight safer, too!

A Teacher's View

AGUANGA (Cal.) May 4.—[To the Editor of The Times:] Having read the many letters appearing in The Times on home study, I can keep still no longer.

It may be true that the Los Angeles high schools require too much home work, but judging from my three years of teaching in California and two years in the South, I say other schools do not. Most teachers here require little home work, or none, in the grammar grades, and usually only when pupils are behind in their studies or when they are slow. Teachers do "co-operate and plan," but with overcrowded rooms, they can't do everything. Then it becomes necessary to require home work. Parents should be glad of an opportunity to see what their children are doing.

The letter of "An Average A Teacher's View

tunity to see what their children are doing.

The letter of "An Average Student" from Huntington Park seems to prove conclusively that high school students are not "overburdened" to any great extent. Having "gone through the mill" himself, his opinion is certainly worth while.

The slogan of most pupils is "Well; I'll get by." Usually they do as little studying as they can. They should really show a greater gain for the amount of time spent in school than they do. Doubless our present school system is partly responsible for this, but educators realize the fact and are striving all the time to remedy it. However, it takes time and much effort to change a whole educational system.

With any system, no matter

time to remedy it. However, it takes time and much effort to change a whole educational system.

With any system, no matter what, certain subjects would have to be required. So why say that "high pressure" methods are being used now? Many other subjects, in addition to the fundamental ones, are a part of the school program. We try to develop as many talents of a pupil as possible.

For the benefit of Cecilia Lee and others, may I quote the opinion of an eminent French, professor who says, "This American education which has no parallel among the French; the excessive lightening of programs, brevity of class hours, long extent of vacations and recreations, not to mention the thousand and one ways of distracting and amusing the scholars—excursions, man u a l work, songs, dances, music, etc."

Thus we see that all the pupil's time is not spent in being "tied down" by six or seven hours of study.

I should like to know if others think that the present school.

bours of study.

I should like to know if others think that the present school system is to blame for the "wild-ness" of the young people of to-day. I certainly do not think so. RUBY T. BRADFORD.

Pot Calls Kettle Black

Pot Calls Kettle Black

LOS ANGELES, April 30.—[To the Editor of The Times:] Anent the piercing "squawks" now rending the air from the Hearst interests over the alleged purchase of several newspapers by the International Paper Company, I can see no reason why they have not just as much right to engage in the publishing business as Mr. Hearst. If, as stated, they use newspapers acquired to further their other business interests they will simply be doing what Wm. R. has obviously been doing for, years. Possibly Hearst fears they may follow in his footsteps and threaten the supremacy he now enjoys as the leader of his peculiar type of journalism. He should calm "hisself." Mr. Hearst occupies a position that no decent man envies.

TODAY OR BY ALMA WHITAKER

The subject of debate wa Tomorrow?" Those present injudges, five lawyers, two young men in their twenties, a couple of writers . . . and numerous

of writers... and numerous spouses.

The arguments both ways were quite convincing. We fairly concluded that most people do live more for tomorrow than for today... as witness investments, insurance, savings accounts, enterprises for the benefit of posterity, a great deal of legislation. But plenty of incidents were offered to illustrate the unwisdom thereof—as, for instance, the man of 76 who has just invested so lavishly in Boulder Dam land enterprises, or the old couple who are worth \$200,000, and yet live in comparative poverty.

Awful instances of those who live solely for today were also forthcoming—combatted by a physician's argument that there should be a concept, a goalvision, as with the sculptor who envisions his finished work, yet concentrates whole-heartedly on the joint of the nose he is finishing today.

Certainly he who does what-

TOMORROW?

she spin, is as unsatisfactory as the too-industrious ant to whom aluggards are advised to go. Tomorrow is important, but very uncertain . . . today is all we are reasonably sure of. Hence it is more important to make today count with the best achievement that is in us . . . while recognizing that there may be tomorrows which must have some consideration.

No one among us could be found to raise a voice for the

BLACK EYE MYSTERY IN ROMANCE

Agnes Francy, Actress, Wears It When She and Logan Metcalf File Notice

Both wore small draped hats to match their gowns, and carried huge bouquets of yellow roses.

Congratulatory cables and telegrams numbering more than 800 were received by Mr. and Mrs. Netcher, most of those from abroad coming from England. Mayor Walker of New York was among the first to dispatch a wire.

Mr. and Mrs. Netcher do not contempate a honeymoon for the present and will move immediately into their new home in "motion-picture row" in Santa Monica. It is probable they will honeymoon later.

Harbor Board

Votes Fund to

Pay Interest

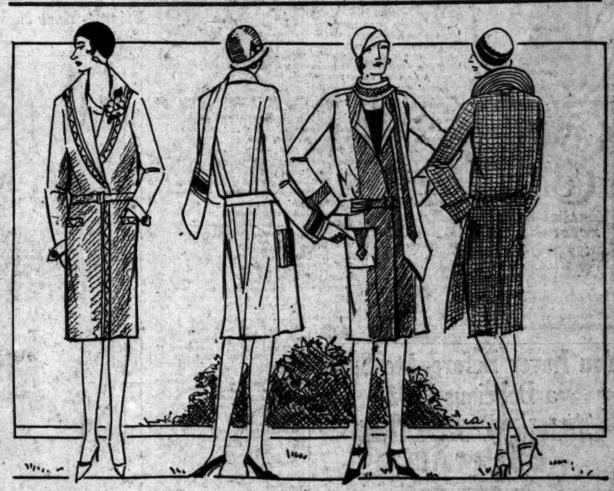

In response to a request from City Controller Myers, the Board of Harbor Commissioners yesterday authorized the payment to the City Treasurer of \$1,300,000 to take care of this year's interest on harbor improvement bonds and to pay back a part of the interest previously advanced by the city. Of the total, \$1,073,605 will be used to pay interest on the bonds for this year in the remainder going to reimburse the city for what it advanced.

President Allen pointed out that each year the Harbor Department adds \$100,000 from harbor revenues to the annual payment on interest and that the department shortly will be able to carry its own debt as the result of its revenues. In response to a question from Allen, General Manager Edwards reported that there is \$2,200,000 remaining from the last issue of harbor improvement bonds.

New Two-Tone Walnut Decorated Metal Bed, \$18.50

# BARKEREST

The supreme achievement in sleeping equipment

The real secret of sound, refreshing sleep is concealed beneath the covering of your mattress, springs and pillow. It is the purity of material and the scientific knowledge of assembly inside that makes Barkerest the limit of lasting luxury and unquestionable comfort.

Specialists for Twenty Years

For 20 years Barker Bros. have specialized in sleeping equipment from a purely scientific principle governing sound repose. They are the originators of the individualized idea; that of the building of springs and mattresses to best serve the personal requirements of each individual. Age, weight and general health are factors that must be considered in prescribing the correct bed. Barkerest mattresses and box springs are built in Barker Bros. own factory—the model of sunshine and cleanliness employing the most skilled craftsmen known to the tailor-made bedding art.

Never purchase a mattress or box spring without seeing and knowing the merits of the inside material and assembly. Come to Barker Bros. for reliable information and advice—see actual sections of every box spring and mattress we make. Qualified salesmen will give you truthful information and advice. Then compare with others if you wish. There is no obligation whatever.

Replace Your Obsolete Beds

Replace your obsolete, uncomfortable beds with Barkerest, the ultimate of luxury, lasting comfort and nicety. They cost no more, often less, then the ordinary commercial product.

New Barkerest Innerspring \$41.50 Mattress No. 102, Full Size

Beautifully upholstered and tailored, 782 springs in separate pockets overlaid with burlap, top and bottom. Compare inside and out with any other's product at any price.

Barkerest Mattress as Low as \$27

Other Barkerest mattresses— guaranteed against becoming hard —100% government standard

Other Mattresses as Low as \$8.50

Other mattresses of Barker Bros.'
own make (not Barkerest) from
\$6.50 to \$21.50 for full size.
These challenge comparison with
others at this price.

#### PLANS FOR BOND | MATE FILES SMOKING PLEA | CRUZE ENGAGES LEADING WOMAN

Can a woman who smokes cigarettes properly care for children?

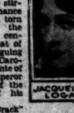

This question will arise in Superior Judge Rosenkrams's court next week, when Angelo Mascero, Santa Monica barber, appears seeking a court order against his wife, Mrs. Dolores Mascero, depriving her of the custody of their two children.

Mascero charges that Mrs. Mascero in her cross-complaint asserted her jealousy was not without cause, and that her husband not only associated with other women, but boasted of his conquests. 24,000 MILES OF UNUSUAL TRAVEL

AROUND PACIFIC CRUISE SEPTEMBER 21st TO DECEMBER 20th, 1929

HEN you voyage for three months around the greatest of oceans upon the super-liner "MALOLO," you will thrill with a thousand new experiences. Amidst access strange and unusual, every day will be removed far from the commonplace.

Upon this cruise you will behold the colorful cities of the Orient, their bazaars and shops crowded with treasures of age-old artistry. "The changing East" you shall view—and likewise the changeless East, as it was long centuries ago.

Under the Southern Cross, where it's glorious summer in November, you will visit the great Commonwealth of Australia; scenic New Zealand, and the South Seas

Traveling under the suspices of the San Francisco Chamber of Commerce, the entire cruise party will be extended exceptional courtesies in the various Pacific ports

isles of Fiji and Samoa, "picture-book lands" of quaint charm. Then a view of Hawaii's volcanic wonders, Honolulu and the Beach of Waikiki; and back to the

American mainland in time for Christmas

If you are interested in this distinguished cruise—the only one to include the Orient, Australesia and the South Seas—call or

write for an attractive illustrated pros-pectus, with full details and deck-plans.

Rates are \$1500 and up, including all arrangements ashore

#### White Mole' for Audience

"The White Mole," mystery comedy by Eleanor S. Lawson, is proving enjoyable entertainment to patrons of that unique organization, established expressly for the production of new plays, the Theater Mart. Written especially for those who relish a thrill mixed in with their romance. "The White Mole" held the interest of a large first-night audience through every moment of its three acts.

Eleanor Lawson apparently has a winner in this latest of plays to come from her pen. It appears to have all the merits needed for popular appeal. There are romance, mystery, comedy, all delightfully interwoven. The climax of the first scene in the second act is one of the dramatic high spots.

The cast is a large one headed by Marjorie Bonner and William Eurens. Both may be commended

DRUGGIST'S LOEB CASE MAY REACH JURY TODAY

Conspiracy to Assault Trial Arguments Near as Defense Closes

Glendale Victim's Friend by Group of Robbers

Word was received here yesterday that Rev. E. A. Truax of the Christian Missionary Alliance in Olendale has been benten and robbed by bandits in the interior of China, Rev. H. Schwendener of Chicago, accompanying Mr. Truax, was kidnaped at the time, according to a callegram to the alliance headquarters in New York from the mission at Sungtao, Kwelchow.

The attack is believed to have taken place while the two missionaries were traveling in a section of the country interted by bandits. After being beaten and robbed, Mr. Truax escaped. Chinese authorities hold out hope that Mr. Schwendener will be returned safely.

Mrs. Truax and three young sons of the missionary new temporarily reside at 317 Mission Road, Olendale, having arrived there with Mr. Truax about a year ago as a result of unsettled conditions in China. Mr. Truax left Glendale to resume his post in China is J. E. Supets, superintendent of the alliance colony in Glendale.

Deciding to become missionaries in China, Mr., and Mrs. Truax, 21 and 18 years of age, respectively, took up their work among the Mou tribe eight years ago, mastering the people's unwritten language. Their sons, 3, 5 and 7 years of age, were born in China.

COUNCIL TO HEAR APPEALS Appeals are scheduled to be heard by the City Council today against the confirmation of the assessments for the opening and widening of Eighth street between Figueros street and Windsor Boulevard, which is one of the largest major traffic plan projects now under way. The total cost of the project is \$3.397.447, but the city has allocated \$302,614 toward it, making the total to be raised by assessment \$3.094.633. The Council is also scheduled to hear protests today against the ordinances of intention for the improvement of Hamel Road between Alden Drive and Third street and of Jordan avenue between Devonshire and Craggy View streets.

Promised by KMTR KHJ Concert Schedule Runs

BY DR. RALPH L. POWER Here are some of tonight's best adio bets, starting at 5:30 p.m. and

Gamut of Music

ing at 10 o'clock: ending at 10 o'clock:

Although some of the Columbia chain programs recently have not reached this Coast because of the change in time and other things yet they promise at 5:30 this afternoon to carry another New York program here through KMTR.

The Picadores dance occhestra will strum some popular numbers, while the male trio will harmonize with a group of tuneful melodies and the salon orchestra offers a few semiclassics.

Then you might switch over to KFI at 6 o'clock and hear Benno Rabinoff, talented young pupil of Auer. Rabinoff was hailed somewhat enthusiastically by critics when he made his initial New York appearance in 1927 with the aid of a sixty-piece orchestra from the Philharmonic

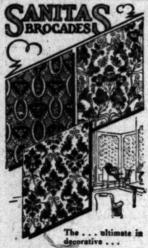

Auer, teacher of Rabinoff, is also nown as the mentor of Elman imbalist, Heifetz and a half-dozen chimbalist, Helles below the famous violinists.

Then KFWB at 7 o'clock offers a diversified entertainment hour. Dale Imes and his orchestra will play for a half-hour via remote control from

half-hour via remote control from Hollywood club.
Then some more orchestrations will be gently wafted out into the broadcast spectrum, also via line telephony, for a half-hour period direct from the sound stage of one of the film lots.
These two dance aggregations have proved to be among the most popular of regular artists playing for the KFWB audience.

DE LUXE BROADCAST

CLUB TO HEAR WOMAN Robert M. Allen, chairman of the Brotherhood Club, announced as speaker for today's luncheon Dr. Lena Leonard Fisher of the University of Southern California. She will speak on Old Caravan Trails. Mr. Alian cailed members' attention to the fact that the Brothedhood office now is located in the Young Men's Christian Association Building and here are talenting.

Wall Covering

Give your walls the lustrous, satinfinish usually essociated with expansive imported brocades.

SANITAS Brocades provide the effect of costly fabries at many times less the price. Sanitas Brocades are available in a wide variety of styles and colors. Amazingly durable, will not crack, tear or peel and may be cleaned with a damp cloth.

# Dut how about YOU

OUT of a silver frame upon your desk, your family smiles at you. Bless their hearts, they'll never want for anything. A certain safety deposit box holds papers that will shield them forever from worry. And your business, too-no matter what happens, it is protected.

But how about you? Day after day, the rush of business rips and hammers at your strength and nerves. Day after day, you leave your office, fagged and worn, desperate for the peace and quiet of your home. But to reach your home, you must plough through weary miles of clamorous, nerve-rasping noise-unless . . . .

..... 2 Rolls-Royce is waiting at your office door! Then how quickly, how completely, the clamor melts into soothing quiet!

The city may roar all around you—but the roar seems worlds away. Rolls-Royce will join your office and your home with a bridge of silence-with a period of relaxation so utterly restful that it strips the weariness from you and makes you fresh again. For Rolls-Royce was built as a protest against noise-as pro-

tection against the shattered nerves that loom like a shadow over every man who holds the pace in this breathless, noise-crazed age. Rolls-Royce brings you solace when you need it most-rest at the time of day when rest will do you the most good.

Rolls-Royce is the quietest car ever built - a car that has ban-

ished not only ordinary squeaks and rattles which all and against, but even those tremulous whispers which, though heard, jar your nerves and wear you down. Sup in die and sink back in the cradling cushions -- a ware of comsweeps over you, drowning your cares. You float toward in velvet wings—so quietly, so smoothly, that you can make sleep, or just relax and be happy. In no other car can per such refreshing restfulness.

And in no other car can you get the same degree of No mechanical part on which the safety of the occuphas ever failed in a Rolls-Royce—it is the safest car in the That's why it commands lower collision insurance rame dear other car. That's why, in this day of crowded highers. many prominent men will trust themselves and the fa to no other car.

Yes, Rolls-Royce is protection for you! the kind of per you need most. And as for cost—the cost per year d the tection for yourself is only a fraction of what you new [4] in insurance that protects your family!
